

BOARD OPERATIONAL GOALS

The Board is responsible to the people, all of the people, for whose benefit the school district has been established. Further, the Board's current decisions will influence the course of education in the district's schools for years to come. By virtue of this responsibility, the Board and each of its members must look to the future and to the needs of all people more than the average citizen finds necessary. This requires a comprehensive perspective and long-range planning in addition to attention to immediate problems.

The Board's primary responsibility is to establish those purposes, programs, and procedures which will best produce the educational achievement needed by district students. It is charged with accomplishing this while also being responsible for wise management of resources available to the district. The Board must fulfill these responsibilities by functioning primarily as a legislative body to formulate and adopt policy, by selecting an executive officer to implement policy, and by evaluating the results. Further, it must carry out its functions openly, while seeking the involvement and contributions of public, students, and staff in its decision making processes.

In accordance with these principles, the Board through its mode of operating, shall seek to achieve the following goals:

1. To work in a spirit of harmony and cooperation for the betterment of the educational system in our community.
2. To concentrate the Board's collective effort on its policymaking and planning responsibilities.
3. To provide the superintendent with sufficient and adequate guidelines for implementing Board policies.
4. To formulate a sound fiscal policy in the interests of fiscal economy.
5. To continually evaluate the district's educational goals and their implementation in the district schools.
6. To maintain open and effective communication with the public served by the schools, and with staff and students in order to maintain awareness of attitudes, opinions, desires, and ideas.
