

STUDENT TRANSPORTATION SERVICES

The major purpose of the district's transportation services is to aid students in getting to and from school in an efficient, safe, and economical manner. Other purposes include the provision of transportation for field trips in direct support of the curriculum and transportation for extracurricular activities.

The district shall operate its own fleet of school buses. The district's transportation program shall be under the direction of the transportation director who shall report directly to the Director of Human Resources. The duties of the director will include bus scheduling and routing, overseeing school bus maintenance, bus driver training, record keeping, and other related assignments.

The director of transportation will make reports to the Board as requested concerning the district's transportation program.
