

Professional Staff Development Opportunities

The Superintendent and building administrators will insure that approval of staff development requests is based on the following:

1. Request matches
 - the mission of Sweetwater School District Number One, and
 - district/building school improvement plan target goals, or
 - target goals of the individual's professional development plan.
2. Request matches a need identified by an analysis and evaluation of student data or current research on teaching and learning.
3. The staff development is research-based and reflects best practices.
4. The individual commits to demonstrating leadership at the classroom, building, and/or district level by
 - Integrating best practices in their own classroom to increase student achievement and
 - Collaborating and coaching others to make best practices district practice.
