

STUDENT FUND RAISING ACTIVITIES

Any organization wishing to utilize or distribute materials through the public schools, and/or students in School District No. One, Sweetwater County, for fund raising drives will use the following procedures:

1. Secure written approval for the project or fund raising event through the Superintendent or his designee.
2. Approved, non-profit, materials will then be distributed to the individual schools by the sponsoring group.

If school time is to be used for presenting any materials, it shall first have the written approval of the Superintendent, or his designee, and the time set in advance with the building principal.

3. For meetings scheduled outside of school hours a facility can be provided for approved organizations to hold meetings for those interested in participating.
4. Any non-school group requiring the collection of money will be encouraged to keep this separate from the school. It would be requested that school personnel not be asked to serve this function.

School students will be discouraged from participating in fund raising activities which require door-to-door canvassing in the community.

A list of approved fund raisers will be maintained in the Office of Human Resources.

Adopted by the Board 2/26/79
