Security Awareness and Training Policy

Purpose:
The purpose is to implement a security awareness and training program for all members of Sweetwater County School District #1’s workforce, including management.

Sweetwater County School District #1 understands that “people,” not necessarily technology, are often the largest threat to the security of sensitive information in the organization.

Scope:
This policy applies to all Sweetwater County School District #1 workforce members including, but not limited to full-time employees, part-time employees, trainees, volunteers, contractors, temporary workers, and anyone else granted access to sensitive information by Sweetwater County School District #1.

Policy:
Sweetwater County School District #1 will ensure that all workforce members have been trained in and understand the security policies and procedures. In addition, all workforce members will be trained how to identify, report, and prevent potential security incidents.

Security training will be an ongoing activity at Sweetwater County School District #1. Periodic security reminders will keep workforce members up to date with new threats, such as computer viruses or “scams” to watch out for. The frequency and form these reminders take will be determined by the Security Officer.

Sweetwater County School District #1 will run anti-virus software on all computers that connect to the Internet and/or are networked together. Members of the workforce must be trained how to use the software and how to spot unusual activity that might indicate the presence of a virus. The anti-virus software must be kept up to date, as new viruses (and other types of malicious code) are discovered daily.

Sweetwater County School District #1 will develop security policies to identify core activities in the areas of security reminders, protection from malicious software, log-in monitoring, and password management.

Responsibilities:
The Security Officer is responsible for ensuring the implementation of the Security Awareness and Training Policy.

Compliance:
District and/or legal action may be taken for violations of applicable regulations and standards such as state and federal rules to include the Family Educational Rights and Privacy Act (FERPA).

Procedure(s): None

Form(s): None
